It is ISO 9,000 accredited and is audited yearly for that purpose. It does corporate and commercial, tax, real estate, employment, dispute resolution, bankruptcy, estate planning, competition law, franchising, IP and securitisation. It is multi-lingual. It is involved in the agricultural, finance, minerals, energy foreign investment and agency sectors.

It was agreed that at the next General Meeting member presentations would be given by Law Solutions Limited and Shulmans LLP.

7. **NEW MEMBERS**

AddVANTE – Pedro Moreira reported that SCA Legal in Madrid had been taken over by AddVANTE and AddVANTE were now applying for membership in Interlegal. AddVANTE had an office in Barcelona as well as Madrid and the application was for Madrid only. The President reported that there was strong opposition to this application from Frouchtman Sant & Josa of Barcelona. Owing to a bereavement Albert Sant i Point, the representative of Frouchtman Sant & Josa, had to leave Prague before the General Assembly. The President expressed the hope that the two firms would talk and was therefore minded to postpone the application. Pedro Moreira stated that he would visit the firm of Frouchtman Sant & Josa. Pedro Moreira hoped that he could bring a solution agreeable to both firms to the next meeting. Bill Blum hoped that a decision would be reached at the next meeting.

New Members Report - The written report of Agustina Vitolo was tabled. A copy of her report is attached to these minutes. The President recorded that Agustina was going a good job but the Association needed to improve the website and show the organisation in a more attractive light. John Ansbro reported that better marketing materials were being put together to give to potential new members.

Petter Pettersen reported that he was working on a Danish member. He also raised the question of Nordia in Sweden. Their membership was confirmed.

8. **PRESIDENT'S REPORT**

This was tabled and noted. A copy of the report is attached to these minutes.

9. **SPECIALIST GROUPS – REPORT BACK FROM THE WORKSHOPS**

- There was a good discussion on quality led by Cristina Salvador.

- Law Management Group, Business Law Group and Arbitration Litigation and Insolvency Group – There was nothing to report as these groups did not meet. There was a concern about the chairmanship of the Arbitration Litigation and Insolvency Group and the Chair Persons would be asked by the President if they wished to continue. Robin King agreed to assist with the Business Law Group.

10. **MARKETING - REPORT BACK FROM THE MARKETING COMMITTEE -**

Bill Blum reported back from the Marketing Committee.

10.1 Website

This needed more work on the design. There were offers to assist from Ruud Voorvaart and Riccardo Cajola. Powell Koehler stated that a set of criteria were needed in order to select the correct designers. John Ansbro stated that firstly the architecture of the website required to be considered. In other words could the website do what the Association wanted it to do. Secondly there was a need to ensure that it met potential requirements. Thirdly it was a question of design. Daniel Vitolo felt it was important to put one person in charge of the website. Bill Blum agreed that a new design was needed and that the architecture was important. He also felt that issues such as applications should be considered. Fernando Trevino said that it would be best to shop around and this could be done in Mexico. Caroline Berube said that the CSM structure should be considered. Authority was given for up to 10,000 Euro to be spent on this project by the Marketing Committee. If more monies were needed then the Executive Committee was given authority to authorise the Marketing Committee expenditure up to 15,000 Euro. A request for proposal would be submitted to a web designer.

10.2 Newsletter

This required some expansion and more member input. It should be circulated not only to members but also to outside persons. It was seen as a pathway to website content. It was appreciated that there were a lot of articles written by members of the Association and therefore there was a need to tie up information for the newsletter/website with the information sent to Frederic Letendre. There would be another newsletter in September 2012.

10.3 Speakers' Forum

Members of the Association should collaborate in seminars. There were a lot of in-house and outreach seminars. A speakers forum for Interlegal should be established with a clearing house. This could be done, where necessary, with the use of Skype. This needed a co-ordinator and Caroline Berube volunteered. Hopefully there would be an appropriate seminar in China. Daniel Vitolo said the choice of topic was important.

10.4 Outreach to Association

EuraAudit was mentioned and the fact that the Vice President was in charge of settling a joint meeting with EuraAudit. Riccardo Cajola asked if members of the Association other than the Executive Committee could attend the Annual Meeting on 15 June 2012 in Paris. The President agreed to ask the Vice President to

make arrangements for non-executive members of Interlegal to attend EuraAudit meetings. As the meeting was in Paris Alexandre Meyrieux expressed interest for his firm.

So far as the UIA was concerned the Association had been invited to General Meetings and UIA wanted the involvement of Interlegal. The President agreed to contact UIA.

It was agreed that this matter would be left on the agenda of the Marketing Committee in view of the investment in the Altman Weil report.

10.5 New Media

Bill Blum asked members to join the Linked-in Group and Linked-in. He encouraged discussions using Twitter and Facebook. The Marketing Committee would continue its research. Agustina Vitolo had volunteered to look at this aspect in Paris but additional people were needed in member firms.

10.6 Mentors

These were to encourage new members to get involved in the Association and certainly in marketing.

11. IBA CONFERENCE – DUBLIN

This was taking place between 30 September and 5 October 2012. John Ansbro reported that the proposal was a breakfast meeting. There was discussion as to whether this was the appropriate forum. The President felt that it would be right to keep some advertising in accordance with the strategy and that a dinner/buffet rather than a breakfast might be the right solution. After a vote 3,000 Euro was agreed for an advert and 4,000 Euro was agreed for either a breakfast or dinner as appropriate. It was emphasised that it would be important, whatever function there was, to follow up leads and make sure that those invited were genuine candidates for membership.

12. REFERRALS REGISTER

Jeremy Shulman opened up the debate by referring to the paper on the subject, a copy of which is attached to these minutes. There was a wide ranging discussion. Pawel Koehler emphasized the importance of referrals in the Association and a register could be used for statistical purposes to be discussed at General Meetings where there were issues and to discuss common standards. Although he supported a register Ramon Bado emphasised the importance of the basis of trust and respect for freedom of choice. Petter Pettersen said that whatever we came up with should be simple. Bill Blum felt that registration should be voluntary. Fernando Trevino felt that a register should not carry complaints and that these should be dealt with separately. Robin King felt that a register would be a good advertising tool. Pawel Koehler felt that a register should be developed in small steps, Bill Blum felt that there needed to be a definition of "referral". Summing up, the President said that a register should be non-compulsory and easy to use and the meeting agreed that the matter should be referred to the Executive Committee for development.

Members were invited to send referrals to John Ansbro that they had received since 1 January 2012. Jeremy Shulman invited further comment within the next month.

13. FINANCE – TREASURERS REPORT

The report was tabled. A copy of the report is attached to these minutes.

14. **INTERLEGAL TRADE MARK**

Retrospective authority was given for the expenditure of the renewal of the Trade Mark which the Executive Committee had to undertake urgently.

15. **POSSIBLE DISPUTE OVER THE TRADING NAME OF INTERLEGAL**

Pedro Moreira reported that the Interlegal name was being used on the web page of a Colombian based business with offices in Spain and elsewhere, including the UK.

In Spain there were two business entities which used Interlegal connected to Columbia and a Colombian Citizen. There was a need to study the detail and take action in Columbia. Pedro Moreira's firm had written to the two Spanish Companies and could issue proceedings against them. He did however need an agent in Columbia and he was recommended to Gustavo Tamayo.

16. **PROPOSED DATE AND VENUE OF THE NEXT MEETING – CHINA 15 TO 18 NOVEMBER 2012**

Caroline Berube made a presentation of the proposals for the meeting in Guangzhou, China, a city of 15 Million people. Her firm is in the new City.

17. **FUTURE MEETINGS**

Riccardo Cajola offered Venice in May 2013.
Fernando Trevino offered Mexico from 10 to 14 October 2013.

There was also an offer of a meeting in Sao Paulo from Cristina Salvador. It was reported that South Africa wished to hold a meeting in future, as did New York.

18. **ANY OTHER BUSINESS**

The revised meeting format was appreciated.

Jeremy Shulman mentioned the Brand Management Paper which had been circulated and stated that this would be discussed in China.

19. **ELECTIONS FOR THE POSITON OF TREASURER AND SECRETARY**

For the position of Treasurer there was only one candidate, Emmanuel Reveillaud, and he was duly elected Treasurer.

For the position of Secretary, there was only one candidate, Jeremy Shulman and he was duly elected Secretary.

There being no other business the meeting was closed.

PRESIDENT'S REPORT FOR THE PRAGUE MEETING

Geneva, April 25th, 2012

Dear Members and Friends,

When we met in Paris last November I said in my report that we were involved in an economic crisis that was having a major impact on our profession and upon business.

Since then the economic situation has not eased. In Europe we seem to have entered a prolonged period of low growth; in the USA there are signs of limited improvement but uncertainty about whether this will survive the election year; in Asia and South America there has been a lowering of the forecasts for growth, although these still remain much higher than elsewhere. This matters because it affects the overall level of business not only in our own jurisdictions but also across international boundaries.

It looks as though the year ahead will remain difficult for us all and I know we will all be working hard in our own businesses to overcome this economic challenge. Therefore it is even more important that we work with our friends within the Interlegal network to take every opportunity for new business and new ideas.

One of the key issues we discussed in Paris is the need to demonstrate the value of membership of the network. Therefore an important element of our discussions in Prague will be about the need to monitor the outcomes whenever we refer work to each other. Not only can this help us provide real evidence of the benefit of membership but it can also provide a powerful argument to help us attract more firms to the network.

A number of the other initiatives we discussed and agreed in Paris have now been put into action. We have made a number of changes to our website and to our marketing materials and we have produced our first newsletter. My thanks go our Vice President for making the resources available to enable this to happen. We now need to make sure that we all provide the news and information that is needed to produce a lively newsletter and which keeps all our firms in touch with what other members of the network are doing. This exchange of knowledge can be another important opportunity to learn good practice and to develop new ideas for our own firms and for the wider network.

We are continuing to develop our relationship with Eura Audit International and look forward to working further with them over the coming year.

To raise our profile we have been represented at the Inter Pacific Bar Association Conference in New Delhi earlier this year and are considering how we can use the IBA Annual Conference in Dublin in September to attract more members to the network. When you look at a map of the world and see where we do not have representation in important markets then you realise how many more opportunities there are.

Later in the year we will be meeting in China, which is still a huge and untapped market. China currently has over 100 cities with a population greater than 1million people so our meeting in November will be an enormous opportunity to see just a part of this fascinating country and economic powerhouse.

However for this meeting in Prague we have taken the opportunity to put into practice a number of changes to the format of the meeting. These changes are designed to give us more time to discuss the major issues affecting our network and for our specialist groups to meet. These changes will still give us the time to meet as friends and to enjoy each others company but provide a better balance between work and play.

I look forward to seeing as many of you as possible whilst in Prague and thank our hosts, TOMAN, DEVÁTY & PARTNERI, for all their efforts in organising the programme to enable us to enjoy their beautiful city.

Christian Fischele, President

AGENDA ITEM 12

REGISTERING REFERRALS

1. Introduction

It has often been suggested that the Network should keep a register of referrals so that members can monitor the business that is passing between members. Some members have been in favour, some against, but many have not expressed views one way or the other.

Recently one of our members, Koehler Rak Kurowski (Pawel Koehler) has raised the issue.

It is a matter for the General Assembly to decide whether or not there should be a register and then probably to delegate to the Executive Committee the setting up of such a register.

2. Who should register

If there were such a register then there would have to be a decision as to which firm would have the onus of ensuring registration, that is the firm giving the instructions or the firm receiving the instructions.

Members may be interested in the value in fees of those instructions and also the work type. The work type can easily be specified at the outset so it would be appropriate for the referrer to have the duty to register when instructions are sent. The value will only be apparent at the close of the transaction so at that time the receiver of the instructions will have a duty to refer the value to the register.

3. Compulsory registration

If we have such a system then registration must be obligatory. The Executive Committee feels that it would be better to deal with this by way of an incentive, perhaps by offering the firm with the largest number of references in say a year the registration fee of a meeting. This would then be paid for by the Network.

4. Other issues

There are some issues which arise out of having a referrals register.

4.1 The need to network

First of all having such a register does not automatically mean that a member will get more referrals than it has in the past. In order to generate referrals members must network among themselves and extensively in the jurisdiction of practice. Members must make it clear to both other members and those in their own jurisdictions that the firms have an international capability.

4.2 Quality

There is also the question of high standards. Member firms must give each other confidence that the work will be done to a high standard. This also raises the question of whether or not there should be quality thresholds for member firms to meet. Up to now Interlegal has been (apart from filling in membership application forms, making a presentation and by "pressing flesh") remarkably passive on the quality front.

The Vice-President intends in his specialist session in Prague to examine the question of quality standards by looking at those which existing member firms have and possibly those to which all member firms should subscribe.

5. Conclusion

All matters around referrals are the subject of an invitation to comment at the General Assembly but members are in particular asked to state whether or not they approve of the setting up of a referrals register and if they do to give power to the Executive Committee to set such rules in relation thereto as may be appropriate.
