

# Interlegal

Wherever your business takes you.

Join Interlegal – one of the longest established and most respected international legal networks.

Made up of independent commercial law firms in over 45 countries, Interlegal is an attractive and accountable alternative for clients to a large international firm or to firms with offices in only one jurisdiction.

The range of services offered by firms in the Interlegal network is comprehensive with many areas of specialist expertise.

# How we work

For clients facing the challenges of international transactions, commerce or cross border disputes, Interlegal firms offer quality legal advice at competitive cost – we do not follow a recipe or a one-size fits all approach. We work with clients to develop flexible service models ranging from simple referrals to integrated teams.

We believe in building strong, long-lasting relationships with clients and in delivering good value through the services we provide. We counsel a diverse clientele, from large public corporations and public authorities to small businesses and individuals, offering clients a full range of corporate legal services, complemented by knowledge of business, customs and local culture within each country.

Our approach is clear. We listen carefully to our clients' needs. We strive to understand each client's business and work with clients, not just as a service provider but also as a strategic partner. Interlegal member firms are culturally sensitive to the ways of doing business in different markets.

Interlegal's core aim is to provide its clients with ready access to high quality legal advice from firms with local knowledge to help them in their international and cross border transactions.

“Since we joined Interlegal we are able to advise our clients with confidence on international incorporation and taxation schemes.”

Orbis Legal Advisory Ltd, Bangkok, Thailand

“Our network meets twice a year in a different jurisdiction in order to get to know each other better, to know what can be provided, so that we can offer more to our clients.”

Dr Ádám Boóc, Past President, Interlegal

# Interlegal philosophy and benefits of membership

Interlegal's philosophy is to develop through its network meaningful relationships among similarly minded internationally diverse commercial law firms. We provide our members with the facility to offer and support professional worldwide legal services.

Member firms are chosen for their record as accomplished legal practitioners, with high ethical standards, who are engaged in the international practice of law and who can offer clients the expertise, personal service and quality required in the complex global market place.

Interlegal collaborates with Eura Audit International, an international accounting group which brings together over 150 well established independent accounting firms.

Interlegal firms have made an investment in the resources necessary to build strong working relationships among our member firms. We communicate with each other on a regular basis, often daily. We exchange interns and lawyers. Members also meet at a General Assembly meeting twice a year to share and exchange the information, ideas and resources required to properly advise clients in the complex global market place.

“Joining Interlegal has been instrumental in giving our firm a much higher profile to attract international work.”

Shulmans LLP, Leeds, United Kingdom

“The network offers clients who do business with an Interlegal firm the same service, quality and professionalism they are accustomed to while using their own personal lawyer.”

Miguel Neto Advogados Associados, Sao Paulo and Rio de Janeiro, Brazil

# Become an Interlegal member

Interlegal is run by its members for its members; people who understand the importance of being part of an international group of law firms with similar high standards.

The day-to-day business of Interlegal is run by an Executive Committee which comprises the President, Vice President, Past President, Treasurer and Secretary. The Executive meets every month and its work is supported by a Marketing Committee which meets regularly to help to develop the network.

Interlegal has a number of Specialist Groups which develop knowledge and responses to international business law problems.

The General Assembly itself takes place twice yearly over three or four days. The meeting comprises a mix of workshops and social gatherings so that people can get to know each other. Personal contacts and relationships are a key strength of the network.

## How to join Interlegal

The Interlegal network continues to grow and welcomes new members. Membership involves a joining fee of 600 Euros and an annual membership fee of 1200 Euros. Membership forms can be downloaded from the web site and sent to the Secretary for consideration at the General Assembly meetings which are held twice a year.

You will be invited to an Assembly meeting to make your application in person, to meet the members and to see how Interlegal works. There will also be the opportunity to make a short presentation about your firm.
